

- Present:
  - John Anderson, Ray Lewis, Gary Lauten, Cons Gattuso, Salah Chaurize, Dan Johnson, Don Rohde, Bob Mau
- Electronic Worklist
  - Types of shutdowns
    - Long
    - Medium
    - Short
  - Short Shutdown
    - 9am meeting days - RunCo asks for mini-meeting after the shutdown.
  - How does Safety review?
- 10CFR-851 - has to be a radiological review before the job was done.
  - Has to be an ALARA plan
  - Performance contract says have to know about rad exposure before the job is approved.
  - Want to review 90% of the jobs > 100mrem.
- In near future will be more important for Rad safety to track jobs, and to track jobs where they can get more than 100mrem.
- Will have a RunCo present at each shutdown.
- Notification
  - John Anderson and Ray Lewis don't get the emails
  - Should Safety switch to Alpha pagers, so they can get email pages for the shutdown.
  - Duty RSO, pager that moves around?
  - Email the jobs as they approved.
  - How to create a reasonable notification network.
  - Cell phones don't work well in Xgal.
- Should RSO or designee be in MCR during first part of shutdown.
- Next meeting for System Support. I will run the meeting.
