

- Will have an operational note - same intensity - cannot go over 16GeV.
  - Mt5el - 151 A or lower
  - Mt4wl - 145A or below.
  - No BBM changes.
  
- 6am, bring up Mtest without target in. Run until 1800, put target in.
- a
- Need operating note to run beam....
- a
- But until something from Eric,
- T950 - primary user, signed
- T964, secondary user, not
- Friday, running normal mode.
- a
- Rick here to startup.....
- a
- Operations Note....
- CAL list
